Up to
5.6 meters wide*

Up to
3 meters wide*

*Sliding panels can be made 5.6 meters wide and 3 meters tall in a 3-track multitrack and 6-panel design.

Ultimate Protection

Noise Protection
Providing 40% better noise insulation performance

Heat Protection
Reducing heat transfers into buildings thus promoting energy conservation

Leak Protection
Water and air tightness secured against wind pressure equivalent to the speed of a typhoon

Pollution Protection
Designed to ensure 3 times better prevention against air pollution including PM2.5

Strong frame designed to support large panels, for easy and smooth use.

Tight locking throughout the frame to ensure durability and safety.

Built-in insect screen rails, thus no additional rails required.
